THAT PRECIOUS BELL.

Ancient Relic May Be Sent to the Panama Show.

Philadelphia, April 14.—A de-termined effort will be made at to-morrow's meeting of city councils to bring about the passage of an ordinance permitting the removal of the historic Liberty Bell from its shrine in Independence hall to the Pennsylvania building at the San Francisco international exposition, where it will be exhibited until the close of the fair. Mayor Blankenburg and leaders in councils favor the movement and are willing to see the necessary money appropriated for expenses of the trip

Heretofore the proposition has been opposed mainly by patriotic orders and by bodies of women who fear that the precious relic might be destroyed in a railroad wreck or some other ac-cident. Now those favoring the exhi-bition of the bell in the far western city have obtained the support of Ad-miral Dewey and General Miles and the influence of these distinguished officers is being felt so strongly that there is little doubt that the bell will e permitted to go away, properly uarded by Philadelphia policemen. Admiral Dewey and General Miles argue that by reason of conditions in Europe this is a good time to stir up patriotic sentiment among the peo-ple of this country and that nothing ple of this country and that nothing would have a greater influence in this direction than a trip across the continent of the bell which preclaimed liberty throughout the land 139 years ago.

Enter Dry Dock.

Story of the Sinking of the

Steamer Bellevue.

Newport News, April 14.—Expecting permission from the Washington authorities to move in dry dock at the shipyard here, Captain Theirfelder, commander of the German commerce raider Kronprinz Wilhelm, early today ordered the vessel made ready to proceed up the James river from her anchorage. The commander also was expecting the examining board of the United States navy to reach here from Norfolk to decide upon the repairs necessary to make the Wilhelm seaworthy.

Preparations to receive the cruiser in dry dock were made at the shipyard. Officers of the company were under explicit instructions not to permit the vessel to enter until authority is granted from Washington. The German committed the vessel to the nationality of the captain Market.

Sinking of the Bellevue.

Details of the sinking of the British steamship Bellevue, one of the Wilsteamship Bellevue, one of the Wilhelm's fourteen victims, were related today by members of the crew, revealing that the British ship was held as a prize for sixteen days before she was sent to the bottom. The Bellevue was bound from Liverpool to South American ports with 4,000 tons of coal and 1,000 cases of whisky, when she was captured by the Wilhelm December 4 last. She was moored to the Wilhelm with strong cables and the work of stripping began. The cargo was taken aboard the commerce destroyer and then the Germans began stripping the engine room of copper stripping the engine room of copper and brass fittings and anything else that might be of value in the rover's

South Atlantic operations.

For days the Bellevue would be tied up to the Wilhelm and at night the German cruiser would stand by the Brooklyn with the Federal League club, there ought to be a fair chance of winning one of the three big pennants.

Advance in Stock Is Led by Bethlehem Steel.

New York, April 15.—Bethlehem Steel was again in the foreground at the opening of today's strong and very active stock masket. It opened with a sale of one thousand shares at 128 to 129, an overnight gain of four points, from which it rose mostly in small lots to 140. At that level it jumped five points to 145 without intermediate quotations, than as suddenly it fell back in breaks of 1 to 3 points to 130, all within the first half hour.

Elsewhere the market manifested it jumped five points to 145 without intermediate quotations, than as suddenly it fell back in breaks of 1 to 3 points to 130, all within the first half hour.

Elsewhere the market manifested to 375,000 shares, of which Bethlems one of the leaders rose from 2 to 375,000 shares, of which Bethlems and quota. The stock recovered from 130 to 135 by 11 o'clock, by which time it ceased to exercise any influence as a market factor.

Seasoned issued were again taken in hand, some rising to level above alast Saturday higher. Reading and U. S. steel were the most notable exceptions to this tendency.

New York Stock Market.

Wall St., New York, April 14—STOCKS—It was estimated that 700,000 shares changed hands during the morning. Bethlehem Steel became increasingly inactive after the first hour, recovering six points from its decline to 130 only to fall back again. Business broadened with the progress of the session until it comprehended even the most inactive issues. The short interest was again driven to cover and particularly in United States Steel and Copppers. Realizing sales, which checked the advance by midday, Union Pacific, Reading, United States Steel and were general among professional traders Coppers falling back a point.

Bonds were irregular.

Betfilehem Steel was again the disturbing feature f today's stock market, opening with a sale of one thousand shares at 128 to 129 against yesterday's final price of 125. The stock steadily ascended to 140, then making a five point jump to 145, an advance of 20 points in less than ten minutes. From this level it descended even more speedily to 130, losing % of its pyrotechnic rise. The balance of the list was strong but orderly, Union Pacific, Southern Pacific and the Coppers rising from 1 to almost 3 points with further substantial gains in Automobile schress. Trading was active during the first half hour and embraced all varieties of issues. New York Stock Market.
